Laurel,

Attached are the documents that were used for the public hearings in WY. The Fact Sheet, Procedures, Submitting Comments, and Signs documents I printed either on the black and white/color printers on the 7<sup>th</sup> floor, or you could send them down to the first floor for printing if you had an extensive amount to print. For the Registration Record Card document, I had the first floor print them for me on card stock (I have the last ones from the WY RH hearings that you could show them). If you have any questions let me know. Thanks!

Crystal –

Can you send me whatever statements, etc.. (any paper work) that we used for the Wyoming hearing on the regional haze SIP/FIP – we are reproposing and will have to do another hearing. I think I provided you comments on some stuff but you ultimately put stuff together if I remember correctly. Thanks and let me know if you have questions.
